My bad I will have to get Veolia to update the profile. I didn't hear back from Demita today either. I will keep an eye on this over the break.

Beth:

Also, I noticed that you did not include the data from the Houston Lab which negates some of the codes.

Thanks

Gary,

Attached is a profile for FT1004 into Veolia as lean water at .17 lbs disposal only. I'm not saying this is our final answer but let's get it approved just in case we need to fall back on it we can be ready to go.

Thanks,
